Optimism

Not worrying if the cup is "half full or half empty" just being happy there's something in it!

FOOD SAFETY FIRST!

Food Safety in a Power Outage Protect your family from foodborne illness when the power goes out. Throw out food that has been sitting at room temperature for more than 2 hours. Without power, a full upright or chest freezer will keep food frozen for about 2 days, and a half-full freezer for about 1 day if the doors have been kept closed. The refrigerator section will keep food cool for only 4-6 hours.

Indoor Gardening Just because there is snow outside does not mean that you cannot have fun gardening. Start your own herb garden or lettuce patch in an inside garden box. Once your herbs are ready, start adding them to your meals. You can also plant them outside when the weather warms up! It can be a lot of fun and a great learning experience for the whole family.
